

Hire a Contractor Using VRBA Expression of Interest

By July 1, municipalities were required to update their bylaws to accommodate the provincial legislation enabling moderate housing density (townhomes, duplexes, fourplexes, etc) in single family zones.

In municipalities of more than 5,000 people, this will allow:

- three to four units on single-family or duplex lots, depending on lot size;
- six units on single-family or duplex lots close to transit;
- one secondary suite or laneway home in all communities.

The changes also remove public hearings for rezonings where housing projects are consistent with Official Community Plans.

If you are considering building a small, multi-family or renovating an existing home into separate units, consider using our online Expression of Interest form to hire a professional contractor.

Visit <https://www.vrba.ca/hire-a-builder/> and fill out the form which is forwarded to VRBA members.

Our Expression of Interest puts your project in front of Canada's leaders in sustainable West Coast design and construction.

VRBA builders have a network of skilled designers, trades and suppliers to manage your project professionally and efficiently.

They can help you identify your vision in the most cost-effective way.

Some consumers make the mistake of hiring a contractor on the advice of a friend.

Many believe they are getting a "deal", but that alleged "deal" can fade quickly and turn into major challenges.

Your builder should have a professional contract, strong track record, as well as warranty and liability coverage.

VRBA members have the experience and knowledge to build or renovate your new project – single-family or multi-family.

Start your search for a contractor with the Victoria Residential Builders Association.
